

ANNOUNCEMENTS:

Beloved Saint Germain's "I AM" School would cordially like to invite you to our Open House. We are having two open houses this year. The first one is during the "I AM" Ascended Master Senior Conclave on Saturday, July 7th from 2:00 to 4:00 pm. The second Open House will take place during the "I AM" Ascended Master Youth Conclave on Saturday, August 11th from 2:00 to 4:00 pm.

We hope you can come by and see the Victories the children accomplished this year. Our curriculum is awesome. Our students are

getting so current with the latest technological and business skills; and our art programs are phenomenal. There will be quite a few of the students' projects on display.

We are currently accepting enrollment applications for the 2018/2019 school year. Please contact the School for an application packet. We are so grateful for this "I AM" School where Beloved Saint Germain is our Principal and our motto is "I AM" Education Illumining the Minds of the World!

The "I AM" School Newsletter is published by the Board of Trustees of the "I AM" School and distributed worldwide to "I AM" Sanctuaries, "I AM" Temples, and interested "I AM" Students. Articles are prepared for publication by faculty members and students, with occasional guest writers. Photos are provided by faculty, students, and friends. Excerpts from this year's Graduation Speeches

Adolfo: A Promise to Life

Having had so many experiences at Beloved Saint Germain's "I AM" School and growing more as an "I AM" Student for these past two years has made me see what the true impact of having a positive and happy attitude really does for myself and the people around me in all situations. This has shown to be very important in my life and having a positive attitude is something that comes easily to me and comes often. I plan on implementing this in my daily life from now on, and hope to bring joy and happiness to every new person I meet. Our Beloved Rose of Light says: "...BE a Blazing Sun of Happiness to everybody and everything that crosses your path. Make it your business to be a Sun of the Cosmic Flame of Cosmic Love and Illumination to everybody else; and if you will do that, you will find your own problems and limitations

have been removed from you by the time you turn around, when you think you have to take care of them." (*The Voice of the "I AM,"* 1945.06:23) We thank our Beloved Rose of Light for those words. I will be that "Blazing Sun of Happiness! as I go on to my next path. I can't believe that I have made it this far, and I could not have done it without the help of my "Beloved Mighty I AM Presence" for keeping me on the right path and showing me the way. And also to my family, administrator, teachers, houseparent, friends, and Board of Trustees, thank you for all your love and support.

Annoushka: The Key to Life Balance

A key lesson for me to learn was and is Balance. How important is Balance? The definition of Balance in Webster's Dictionary is: "an aesthetically pleasing integration

of elements, and a physical equilibrium." I would have to say that Webster missed one very important element in his definition, that of Love. Love is the most important part of Balance, and is especially essential in the busy world of today, which is even sped up at the "I AM" School by a few notches! In everything you have to do, you must find Balance. Searching for it is a part of the way we live life.

So the answer to the question, "How do I get Balance in my Life?" is very simple. It is about putting your "Beloved Mighty I AM Presence" first in everything you do! I have been given the opportunity to use the Ascended Masters' Teachings in everything I do. Being at the "I AM" School has allowed me to intertwine my schooling

Poetry in Motion!

In Grade School Language Arts with Miss Claudia, we have been studying poetry, and we got to meet and talk to a real poet, Mr Keith Hummel. Here are some poems from our students:

When the clouds get dark in the winter
and the sun starts to fade
here comes the rushing snow flakes
just like a wave
Brian Unthank - Grade 4

The beautiful bright magnificent sunset
floating over the green wet forest
The bright sunset comes every afternoon
then leaves

EAGLE

The free eagle flies so high
like she's flying in a sea
of blue in the air
called sky.

Her long wings
like the chocolate brown that
melted on a hot summer day.

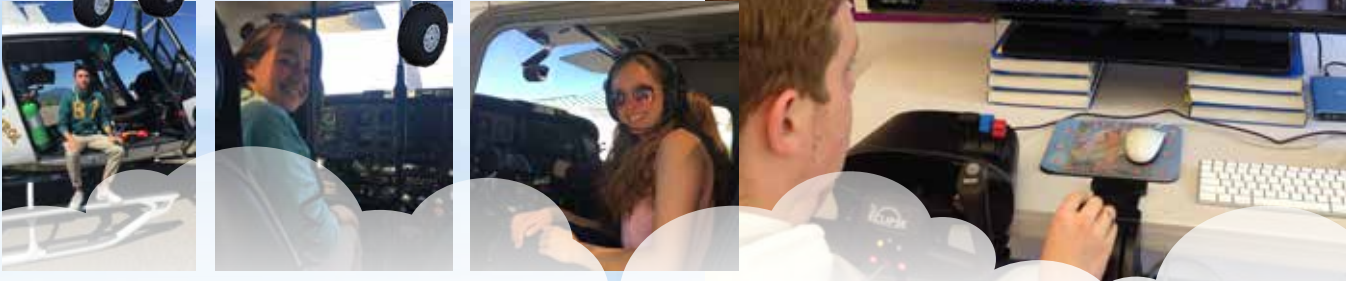

When she's around like a charm
waiting to be found
and if you see her
good luck is destined to be yours.

The free eagle who flies high
bringing peace to all
just from the sky.

2018 AVIATION CLASS

This year Mr Elrod conducted our first Aviation Class, where the High School learned the physics and the technical aspects of flying, got to fly a simulator program, and visit the Redding Airport to see and meet pilots and their planes. The class was loved by all - including Mr Elrod!

I Lava You! This year our Spring Recital was dedicated to Hawaii and Beloved Lord Maha Chohan. Months before, Miss Carol began with the selection of the song called "Lava" about two volcanoes singing to each other. The "Ascension" played on the harps brought the Recital to a transcendent close. Seeing that Hawaii was the emphasis forming our Recital theme, we added "Ecstasy" on the handbells. Then came the news reports about the real volcano erupting in Hawaii and we began to wonder if maybe we spent a little too much energy singing our volcano song in rehearsal? Ultimately, we decided that it was probably just a prompting to send a little extra love to Hawaii, and call for their protection and healing.

The Recital was a resounding success. For the first half, all 17 children played a solo on the piano, beginning with our 5-year old preschooler, Ellie, and ending with one of our seniors, Annoushka, who also performed one of her own compositions. Another senior, Aristide, also performed an additional number on his French horn. Every performance, which included works by Mozart, Bach, Schumann, and Beethoven, was masterfully played. After a brief intermission we performed our three ensemble numbers on the bells, harps, and then choir.

Just before the kids sang "Lava," with three of them accompanying on ukuleles, we gave a dedication and some Calls for the protection of Hawaii. Our room was decorated with streams of flowers, petals, and tropical drapes. On the walls hung hand painted art scenes from the ocean, created by some of our students and faculty in Tuesday art club. Afterward everyone enjoyed a wonderful pot luck meal. Heather, from our Grade School, worked on an exploding volcano for the event as well. A fun ending to a perfect day.

P. E.

Spring this year included several tennis sessions, a lake day kayaking and running, and the High School completed their first ever "Learn to Row" session on Lake Emigrant. Both physically and mentally challenging!

Graduation 2018

...continued
with the spiritual Teachings. I have been able to write essays that encompass the Ascended Masters' Laws, Thoughts, and Feelings. Is there any other School that allows you to do this? Not to my knowledge and "I AM" so Grateful to have had this opportunity.

Aristide: A German Learning in America

As I listened to Mighty Cyclopea's words, "We are trusting to bring a new consciousness into the educational activities of life-I hope through the 'I AM' Schools." (Record CD 0323). I can say that the "I AM" School did help me personally, because I received an uplift in my understanding of life and also was able to get rid of some negative habits that I wanted to overcome. Our Beloved Godfré's Statement meant a lot to me this year. He says: "Now if people are just not interested enough to change their habits, or discipline the outer self to stop creating that which is discordant, then how can the Cosmic Law, or the Love of the Ascended Host set mankind free?...But the discipline must begin entirely within yourselves." (Record CD 1343) Thank you Beloved Godfré for those words. The very constructive surroundings in the "I AM" School helped me to develop my discipline and work hard and independently on different subjects. This was easier to do than it was to do

at home because the subjects interested me a lot (like astronomy, business, a book on America, and American History). I also liked to be able to share my knowledge with the other pupils, such as in English as a second language, or German language and German history.
